Objective

Motivated Electrical and Electronics Engineer with expertise in circuit design, power systems, and troubleshooting. Seeking to contribute technical skills and innovative solutions to a dynamic engineering team while advancing my career in a challenging and growth-oriented environment.

Experience

- Cistron systems private Limited, Chennai**
07/2024 - Present
Production Engineer (Electrical)
Manufacturing medical equipment, including sterilizers, Ethylene Oxide Sterilizers, PSA medical oxygen generator, CSSD Accessories OT lights, and other related devices.
- Prime Edge info solutions Pvt Limited, Chennai**
08/2023 - 07/2024
Hardware Engineer
Manufacturing ITMS(Intelligent transport management system)devices,such as mnvr(Mobile network video recorder), BDC(Bus driver console) and Bus Leds.
- Prayagaa Enterprise, Chennai**
09/2022 - 02/2024
Junior Electrical Engineer
Designing and Implementing work schedules for the electrical staff. Reading and Interpreting design schematics
Troubleshooting major system failures and equipment malfunctions.
- Chegg India**
10/2021 -
Subject Matter Expert
provides the knowledge and expertise in a specific subject, business area, or technical area for a project/program.

Education

Course / Degree	School / University	Grade / Score	Year
B Tech in Electrical and Electronics Engineering	College of Engineering Pathanapuram, Kollam	70%	2021
Higher Secondary	Government Higher Secondary school, Maroor	73%	2017

Skills

- Electrical Cad
- Autocad
- Matlab
- MS Office
- Blender
- Soldering
- Project Management

Projects

- **IoT Based Circuit Breaker For Lineman Protection (05/2021)**

This project provides a password based circuit breaker system using IOT. Quite a lot of fatal accidents happen with line men due to electric shocks. It is a result of miscoordination or miscommunication between line men and substations.

- **Dual-Switch Boost DC DC Converter For Use In Fuel Powered Vehicles (11/2020)**

To facilitate voltage matching between the cell stack and power batteries in fuel-cell-powered vehicles, an implementation of a simple dual-switch boost DC-DC converter topology has been proposed in this paper.

- **Hybrid Solar Panel Designing (10/2019)**

Hybrid solar panels, also called all-weather solar panels, generate electricity from both the sun and the rain.

Achievements & Awards

- Energy Literacy (06/2020) Energy Swaraj Foundation

Organizations

- IEEE (01/2018 - Present)

Courses & Certification

- **Mastering Programming with MATLAB (07/2022) -**

This course teaches computer programming to easy to learn, versatile and very useful for engineers and other professional.

- **Solar Energy and Electrical System Design (04/2022) -**

This course supplies learners with the insights necessary for properly planning, a photovoltaic (PV) system per design specifications.

- **AutoCAD Electrical (01/2022) -**

This course teaches drafting basic geometry, Advanced drafting & Modifying, Layout plot & publish, Circuit builder, Programmable logic controller.

- **Solar Photovoltaics (03/2019) -**

This course is an introductory course on solar photovoltaics materials and devices, various solar photovoltaic technologies
