Career Objective

Electrical and Electronics Engineering student (CGPA: 7.82) with expertise in power electronics, motor control, renewable energy systems, and intelligent controllers. Proficient in MATLAB/Simulink, Python, and Embedded C. Passionate about electric vehicles, automation, and sustainable energy solutions.

Key Skills

- MATLAB/Simulink, Python, Embedded C, Electrical Machines, Power Electronics, Control Systems
- Induction Motor Control, Robust H_∞ Controller, Fuzzy Logic Controller, GA-PID Controller
- Power System Fault Analysis and Classification using AI models
- Google Cloud Platform (Cloud Digital Leader Certified), Technical Writing, Team Leadership

Education

B.Tech – Electrical & Electronics Engineering

Vellore Institute of Technology (VIT), Chennai — Class of 2025

CGPA: 7.82 / 10

Relevant Coursework: Power Electronics, Control Systems, Electric Vehicle Systems, Embedded Systems, Renewable Energy Systems

Projects

Advanced Speed Control of Induction Motor using Robust H_∞ , Fuzzy Logic & GA-PID Controllers

Designed and compared advanced control strategies for induction motor speed regulation. Implemented in MATLAB/Simulink with performance evaluation under varied load conditions.

Bidirectional Inverter for Electric Vehicle

Developed inverter system for EV charging and regenerative braking. Simulated switching characteristics, efficiency, and grid-integration using MATLAB/Simulink.

Power System Fault Detection with Deep Neural Networks

Built a deep learning-based model for automatic detection and classification of power system faults. Enhanced system reliability and reduced false alarms.

Certifications

- Google Cloud Certified – Cloud Digital Leader (Dec 2023 – Dec 2026)
- Google Cloud Computing Foundations Program (Dec 2023)
- Google Cloud Career Readiness – Digital Leader Track (Sep 2023, No Expiry)

Achievements & Activities

- Led academic projects on motor control, inverter design, and system fault analysis.
- Hands-on experience with MATLAB/Simulink and embedded systems projects.
- Active participation in technical workshops, university events, and team collaborations.
