2/65,Adhanur, Villupuram - 605402

OBJECTIVE

Aspiring Electrical and Electronics Engineer with a solid technical foundation and a passion for innovation. Skilled in simulation, design, and problem-solving. Seeking an entry-level opportunity to contribute to impactful projects, grow within a collaborative team, and deliver quality engineering solutions.

TECHNICAL SKILLS

- **Programming & Software:** MATLAB/Simulink, Java, C, MS Excel, MS Word, Canva
- **Core Technical:** Electrical Machines, Power Electronics

BEHAVIORAL SKILLS

- Behavioral Skills: Management, Leadership, Communication, Problem-Solving

EDUCATION

UG

Sri Sai Ram Institute of Technology-2021-2025

B.E-Electrical and Electronics Engineering. CGPA -**8.69**

HSC,SSLC

VRP Higher Secondary School

HSC/2019-2020 /**87%**

SSLC/2017-2018/**92%**

PROJECTS

Electric Bike Design for SAE Competition (20th Place – National Level)

Designed and developed a functional electric bike prototype aligned with IEEE research standards for the SAE India E-Bike Design Challenge. Secured 20th place at the national level. Contributed to simulation using MATLAB, motor control logic, and performance analysis. Gained hands-on experience in real-time testing and aligning technical benchmarks for electric vehicles.

Solar Backpack Prototype for Remote Power Access

Developed a solar-powered backpack as a sustainable and mobile charging solution for off-grid and remote areas. Integrated lightweight solar panels with a compact power management system to support on-the-go device charging. Focused on functionality, portability, and energy reliability in harsh and rural environments.

The design aimed to assist students, trekkers, and field workers who lack consistent access to electricity. This project demonstrates an innovative approach to merging renewable energy with everyday utility.

INTERNSHIP

Company Name: AARTHI INDUSTRIES PVT. LTD,CHENNAI - (22.05.2023 - 09.06.2023)

I assisted in overseeing the production process, conducted quality checks to ensure high standards, and supported the dispatching process to ensure accurate and prompt delivery of products.

Company Name: UE PRESS TOOLS PVT LTD ,Thirumullaivoyal - (03.06.2024 - 19.06.2024)

I gained exposure to various processes within the Quality System Department. I demonstrated diligence, hard work, and inquisitiveness throughout the internship, and was recognized for possessing a good moral character and a pleasing personality.

ACHIVEMENTS

UNESCO World Heritage Volunteers – Ahmedabad City

Selected as a volunteer for the UNESCO World Heritage Volunteers program in Ahmedabad. Contributed to heritage conservation, awareness activities, site documentation, and community interaction to support the preservation of historical landmarks.

Participated in SAEINDIA Southern Section – Electric Two-Wheeler Design Competition

Participated in the SAEINDIA Southern Section's national-level Electric Bike Design Challenge. Contributed to the design, simulation, and development of an electric two-wheeler based on IEEE standards, securing 20th place among top engineering institutions.

Actively involved in MATLAB-based performance simulation, component integration, and design validation under technical constraints. This experience sharpened my skills in teamwork, technical communication, and applying theoretical knowledge to real-world mobility solutions.
