📍 Chennai, India

☎ +91 9940021117

OBJECTIVE

Motivated and ambitious Electronics and Communication Engineering graduate, eager to apply academic knowledge and gain practical experience in the field. Committed to contributing to innovative projects and learning from experienced professionals to build a successful career in electronics and communication engineering.

EDUCATION

BE Electronics and Communication Engineering

St. Joseph's College of Engineering, Chennai

2021 – 2025

CGPA 7.72

HSC

St Marys Boys Higher Secondary School, Chennai

2020 – 2021

percentage-82%

PROJECTS

BLUETOOTH CARMODEL | Arduino IDE, C/C++

Dec 2024

- Made a model of a car which is controlled by Bluetooth and Arduino(Microcontroller) We can connect the Bluetooth in our mobile with the Bluetooth module and thus control the car and we are going to modify and upgrade the model for development of our project.

GUSTURE-CONTROLLED LED LIGHTNING SYSTEM WITH IOT

May 2024

- "Developing a gesture-controlled LED lighting system integrated with IoT, allowing users to interactively control lighting effects through intuitive gestures."
- Creating a gesture-controlled LED lighting system with IoT involves integrating several technologies together.

SOUND-BASED REAL-TIME RAILWAY POINT MACHINE MONITORING

May 2025

- Developed an intelligent fault diagnosis system that uses sound signals to detect anomalies in railway point machines. The system integrates IoT (NodeMCU ESP8266) for real-time data transmission to ThingSpeak cloud, where machine learning models analyze acoustic features like MFCC and FFT.

INTERNSHIP/INPLANT TRAINING

DADB India Pvt. Ltd – Technical Training Intern

Jan 2025 – Apr 2025

- Contributed to the B2G project and supported technical training initiatives. Showed strong dedication, quick learning, and effective collaboration.

Signal and Telecommunication Department

May 2023

Southern Railways, Chennai

- Gained hands-on experience in railway signal systems and telecommunication infrastructure, focusing on safety protocols and real-time communication networks

Chip Test – VLSI Training

June 2024

- Basic training on chip-level design using Verilog HDL.

TECHNICAL SKILLS

Programming Languages

- Python
- Basic C
- SQL

Technical Skills

- Embedded Systems
- Automation & Control Systems
- Testing & Debugging

COURSE CERTIFICATIONS

- C Training - Spoken Tutorial Project, IIT Bombay.
- VERILOG HDL-VLSI Hardware Design Comprehensive
- Udemy C programming for beginners master the c language
- Udemy MICROCHIP Certification in Programmable Logic, FPGAs and SoC

WORKSHOP

AI Communications

Aug 2023

Retech Solutions Pvt Ltd, Tamil Nadu, India
