PROFESSIONAL SUMMARY

Instrumentation Service Engineer with 8+ years of experience in installation, commissioning, calibration, and troubleshooting of analytical, scientific, and field instrumentation across Oil & Gas, Energy, Aviation, R&D, and Industrial sectors. Strong expertise in Olympus/Evident Videoscopes, PARR Instruments, CHNS/CS/TGA analyzers, and field transmitters. Skilled in customer support, OEM communication, documentation, audit compliance, and technical reporting.

WORK EXPERIENCE

Instrumentation Service Engineer – ADOS (Olympus/Evident Service Center, UAE)

Feb 2022 – Jul 2025

- Authorised Service Engineer and Technical Advisor for Olympus/Evident RVI Instruments for MEA region.
- Provided technical support, training, and guidance across Oil & Gas, Aviation, and Energy sectors.
- Communicated with OEM and clients for technical clarifications and recommendations.
- Performed troubleshooting, detailed inspection, equipment service, and calibration.
- Prepared initial and final inspection reports and managed audit documentation.
- Provided onsite and remote technical support for customers.
- Handled spare parts identification, management, and quotation preparation.
- Serviced Olympus IPLEX NX, GX/GT, Stereo Measurement, GLite, GWind, and GAir systems.

Sr. Service Engineer – Orbit Technologies Pvt. Ltd., India

Nov 2020 – Dec 2022

- Authorised Service Engineer for PARR USA Bomb Calorimeters and Reactors for South India.
- Performed installation, commissioning, and training on PARR Calorimeters and HTHP Reactors across South India.
- Experience with Carbon Sulphur (CS) Analyzers, Thermo-Gravimetric Analyzers (TGA), and CHNS Ultimate Analyzers.

- Completed 100+ installations for R&D labs, refineries, universities, and industries.
- Provided preventive maintenance, calibration, troubleshooting, and customer support.

Field Instrumentation & Calibration Engineer – Voltech Engineers Pvt. Ltd., India

Mar 2017 – Oct 2020

- Commissioned and calibrated field instruments: Pressure, Flow, Level, Temperature transmitters.
- Hands-on experience with control valves, MOVs, pneumatic/electronic valves, analyzers (pH, CO, CO₂, N₂).
- Performed loop checks, logic verification, and DCS/PLC interface validation.
- Worked on Oil & Gas, Steel, Cement, Power, and process plant projects.

CORE SKILLS & TOOLS

- Olympus/Evident Videoscopes: IPLEX NX, GT/GX, Stereo Measurement, G-Lite, G-Wind, G-Air
- PARR Instruments – Calorimeters & Reactors
- CHNS, CS, TGA, Proximate Analyzers
- Electro-technical, Thermal & Mechanical Calibration
- HART & Foundation Fieldbus | Smart Transmitters (Honeywell, Rosemount, Yokogawa)
- DCS loop checks | P&IDs | Control Panel Erection | ITP Documentation
- Software: MS Office, LabVIEW, OEM Service Tools

EDUCATION

BE – Electronics & Instrumentation Engineering.

Adhiyamaan College of Engineering, Hosur (2011–2015).
