

Madhu Tirumalasetty

Email: madhutsr66@gmail.com

Contact: 6303959567

CAREER OBJECTIVE:

To build a career in a reputed organization where I can utilize my technical knowledge and skills to contribute to the organization's growth and success. I aspire to work as a key player in a challenging and creative environment that encourages continuous learning and professional development

EDUCATION QUALIFICATION:

MTech in Electrical Power Systems passed from Srinivasa Institute of Technology & Sciences, affiliated to JNTU Anantapur in 2025 with a CGPA of 8.63

B. Tech in Electrical and Electronics Engineering passed from SCSVMV University with an aggregate of 82.8% in the year 2021.

Intermediate passed from Narayana Junior College with 92.1% in the year 2017.

SSC passed from New Horizon English Medium School with 82.00% in the year 2015.

TECHNICAL SKILL SET:

Operating systems: windows 10/11, Linux (Basic)

Networking: LAN, WAN, IP configuration, Troubleshooting

Hardware Installation: Maintenance, and Troubleshooting of Desktops, Laptops, and printers

Software: MS Office, word, Outlook configuration, Remote Desktop Tools (Any Desk, TeamViewer)

Ticketing Tools: ServiceNow /Jira (if applicable)

Basic: Knowledge of Active Directory and DNS

Programming language: C, C++

Tools: MATLAB, Multisim

Academic Projects:

M.Tech Project:

Title: Discrete-Time Modeling and Control for LFC Based on Fuzzy Tuned Fractional-Order PD Controller in a Sustainable Hybrid Power System.

Description: Developed a discrete-time control model for load frequency control using a fuzzy tuned fractional order PD controller to enhance systems stability and performance in sustainable hybrid power systems

B.Tech Project:

Title: Stability improvement of Dc power system in all electric ship using hybrid smes/ Battery

Description: Designed a dynamic droop control strategy using hybrid energy storage systems integrating SMES and battery units to improve systems stability during pulse load conditions

Industrial Training:

- Underwent 15 days industrial training (2017-2018) at Rayalaseema Thermal Power Station, Kadapa, gaining insights into power system applications, plant operations, and energy generation.

Underwent 15 days industrial training (2019-2020) at Thermal Power Station, Nellore, understanding system operations control mechanisms and electricity production processes.

CV Skills:

- Power Systems Analysis
- Power Systems Stability
- Load Flow Studies

- Load Frequency Control (LFC)
- Renewable Energy Integration (Solar, Wind)
- Smart Grid Technologies
- High Voltage Engineering
- FACTS & HVDC Systems
- Building Management Systems (BMS)
- PLC/SCADA (basic knowledge)
- Electrical installation and maintenance
- Team Collaboration and communication
- Protocols: BACnet, Modbus (familiarity)
- Fire Alarm, Lighting & Access Control Integration
- Energy Monitoring & Control
-

Strengths:

Excellent communication and problem-solving skills

Quick learner with a positive attitude

Ability to work in team as well as independently

strong customer service connection

Better exposure to the heavy industry and the learnt the way of work

Personal Details:

Date of Birth: 11-December-1998

Languages Knows: English, Hindi, Telugu

Hobbies: Reading books, troubleshooting systems, Listening music

DECLARATION:

I hereby declare that all the information furnished above is true to the best of my knowledge and belief.
