- Maintained working knowledge of environmental legislation for full compliance.
- Provided detailed electrical system documentation, facilitating smooth handovers and future maintenance work.
- Provided technical advice on most efficient electrical engineering materials, products and processes.
- Investigated electrical failures, identifying root causes and implementing corrective actions to prevent recurrence.
- Collaborated with cross-functional teams to design and implement energy-efficient electrical systems, reducing operational costs and environmental impact.

Sales and Service Engineer at Scientific Labs and Equivalent Service, Coimbatore, TamilNadu — Dec 2023 - Dec 2024

- Set up and serviced electrical lab equipment and worked in various voltage and pressure.
- Executed on-site client visits and resolved troubleshooting issues.
- Partnered with sales to deliver customized solutions for clients.
- Recorded technical reports, service logs, and additional pertinent documentation.
- Collaborated with team members to achieve target results.
- Engaged with customers to better understand needs and deliver excellent service.

TOOLS AND
TECHNIQUES

- Languages & Tech Stacks: C, C++, Python, Java, HTML, CSS, JavaScript, React Tools
- Tools & Frameworks: VS Code, Git, Eclipse, IntelliJ, Jupyter Notebook, Canva, Nmap
- Design & Development: UI/UX Design, Web Development, API Integration
- Concepts: Data Structures & Algorithms, Problem Solving, System Design
- Also well experienced in working with high voltage and with many equipment

COMPETITIVE
PROGRAMMING

- LeetCode: 400+ problems solved | Contest Rating: 2000+
- CodeChef: 200+ problems solved
- HackerRank: Certified in C, C++, Java

SKILLS

- Client relationship management
- Technical liaison
- Problem resolution
- Market analysis
- Communication skills
- Team leadership
- Programming
- Fast learner
- Ability to work in a team
- Equipment maintenance

Marketing Intern (Paid) at Skolar, Coimbatore, TamilNadu —
Jul 2023 - Oct 2023

- Facilitating planning and execution of marketing campaigns to enhance brand visibility and customer engagement.
- Developing and curating content for social media platforms, resulting in enhanced audience engagement and reach.
- Performing competitor analysis and executing market research to enhance campaign strategy and inform decision-making.
- Partnering with design team to create promotional materials and maintain brand consistency.
- Overseeing campaign metrics and drafting performance reports to evaluate effectiveness and propose enhancements.

ACADEMIC PROJECTS

Smart Pre-Order Food Dispenser — Oct 2025

Designed a web-controlled vending system integrated with QR code tech for streamlined food preordering.

News App — Jun 2024

Real-time news app using React, featuring live headlines, category filtering, and responsive UI with optimized API handling.

Udemy Course Management Website — Nov 2023

Created a React + Cursor-based platform for analyzing Udemy course data—offering rating trends, instructor impact, and secure storage.

Online Movie Ticket Platform — Jun 2022

Java-based website for booking tickets with secure user data handling and multi-feature functionality.

Bill Management System (Chat Application) — May 2021

Built in Python to facilitate bill payments and user interaction with authentication and notification support.

Online Voting System — Dec 2020

A secure C-based voting platform with user login, vote encryption, and result tallying.
