

SUJOY SARKAR

Bachelor of Technology in Electrical Engineering
JIS College of Engineering, Kalyani, Nadia.

sujovsarkar.ee.0824@gmail.com | +916295828622 | [LinkedIn](#) | Taherpur, Nadia, India.

EDUCATION:

JIS College of Engineering, kalyani, Nadia.

- B.tech in Electrical Engineering (2023 - 2026)
CGPA: Upto 6th semester – 8.62

JIS School of Polytechnic, kalyani, Nadia.

- Diploma in Electrical Engineering (2020 – 2023)
CGPA: 8.3

Birnagar High School, Birnagar, Nadia

- XIIth : 71.2% (2020)

Gobindapur Dwarikanath Institution, Santipur, Nadia.

- Xth: 55.14% (2018)
-

TECHNICAL SKILLS:

Languages: Basic C – programming, Python (Beginner).

Soft-Skills: Analytical Thinking, Problem- Solving, Collaborative, Adaptability, Communication.

PROJECTS:

- **A High Gain Switched Capacitor Boost Converter for SPV Applications | Power Electronics**
 - Designed and analyzed a high-gain switched-capacitor boost converter for solar photovoltaic (SPV) applications.
 - Achieved high voltage gain with minimal additional components.
 - Implemented converter with reduced voltage stress on switch and diode.
 - Validated performance through a 200W prototype simulation.
- **Salary Prediction and Fair Compensation Model**
 - Leveraged data science techniques to develop a model that predicts employee salaries based on historical data.
 - Performed data preprocessing, feature engineering, and exploratory data analysis (EDA) to understand factors impacting compensation.
 - Built and compared machine learning models including Linear Regression, Decision Trees, and Random Forests for accurate salary prediction.
 - Automated the salary prediction workflow, enabling data-driven and consistent HR practices.
- **Smart Parking System Using IoT**
 - Developed a Smart Parking System using NodeMCU ESP8266, IR sensor, LEDs, and buzzer for real-time slot detection.
 - Programmed the system using Arduino IDE for hardware integration and sensor data processing.
 - Designed a user-friendly alert system with visual (LED) and audio (buzzer) indicators for occupancy status.

TRAINING & CERTIFICATIONS :

- Completed 18-day industrial training at **West Bengal State Electricity Distribution Company Limited (WBSEDCL)** on power distribution systems and substation operations.
- Completed “**Smart Parking system Using IOT Training**” [5 Days], certified by Ardent Computech Pvt. Ltd.”
- **Fundamental Data Science Virtual Course, Skill Dunia – 4 weeks.**
 - Skills Covered: Data Cleaning & Preprocessing, **Supervised Learning:** concept of Linear Regression, Logistic Regression, Decision Tree, Random Forest, K-Nearest Neighbors, Unsupervised Learning – concept of K-Means, Clustering.

ACHIEVEMENTS:

- Participated in JIS Tech Fest with the project “**A High Gain Switched Capacitor Boost Converter for SPV Applications**” (30+ teams); Simulink skills, innovation, and effective team collaboration.
- 1st Place, Inter-College Carrom Competition, JIS College of Engineering.
