Objective

To effectively contribute to a dynamic organization by utilizing my solid foundation in electrical and electronics engineering principles and my practical skills in circuit design, power systems, and embedded systems." In order to support innovative ideas, promote technical growth, and develop professionally, I am dedicated to lifelong learning and creativity.

Education

- **SRI RANGANATHAR INSTITUTE OF ENGINEERING AND TECHNOLOGY,**
Coimbatore
B.E Electrical And Electronics Engineering .
- **HSC-DGM HIGHER SECONDARY SCHOOL.** Sethiyathope
- **SSLC- DGM HIGHER SECONDARY SCHOOL.** Sethiyathope

Technical Skills

- **Software & Tools:** Proteus8.0, MATLAB, Esay EDA
- **Packages:** MS Office
- **Programming Languages :** HTML ,CSS, Embedded C

Internship Experience

(Field Service Engineer)

THE SCIENTIFIC ENGINEERING WORKS - Coimbatore(2024-2025)

- Installed, calibrated, and maintained a wide range of scientific laboratory instruments, including analytical equipment (e.g., spectrometers, microscopes) and precision measurement devices.
- Diagnosed technical issues, performed on-site troubleshooting, and carried out repairs to minimize equipment downtime and ensure optimal operational performance.

Project Developer (Embedded, IoT, Robotics)

PROTOWIZ PRIVATE LIMITED, Coimbatore (2023-2024)

- Developed 5 IoT-based prototypes, reducing project costs by 15% through optimized hardware selection and software integration.
- Implemented automation solutions that enhanced system response time by 30%.
- Delivered two real-world applications used in smart home and industrial automation, resulting in a 20% increase in project efficiency.
- Led a team of 4 interns in prototyping and testing, successfully meeting 90% of project deadlines.

Motor Repair Technician

MOTOTECH INDUSTRIAL SOLUTIONS (2022)

- Diagnosed and repaired over 50 AC/DC motors, reducing turnaround time by 25% through improved troubleshooting techniques.
- Rewound 20+ motors with a 95% first-time pass rate in performance testing, improving client satisfaction.
- Optimized coil winding procedures, resulting in a 10% reduction in material usage.

Projects

- Real-Time Industrial Machinery Monitoring System.
- Smart Factory Automation using IoT
- Smart Energy Meter with Real-Time Usage Monitoring.

Languages

I'm well versed in
Tamil
English

Declaration

I hereby declare that all the information mentioned above is true to the best of my knowledge and belief.
