

Ponezhili K Villupuram, Tamil Nadu 6380911208  kponezhili@gmail.com

Summary

Enthusiastic and detail-oriented Electronics and Communication Engineering graduate with a strong foundation in electronic systems and software development. Proficient in Python and passionate about applying technical skills to solve real-world challenges. Eager to contribute to innovative projects and continuously learn in the fields of technology and engineering.

Education

University College of Engineering - BIT Campus 2021 - 2025
Bachelor of Engineering
Under graduate in Electronics and Communication Engineering 7.62/10

Higher Secondary Schooling 2020 - 2021
Bonne Nehru Higher Secondary School,
89%

Skills

Programming Language	Tools Used
- Python - Shell Scripting (Bash) - C Programming - HTML5, CSS3 - MySQL (Basic)	- Visual Studio - MATLAB - Python IDLE - Ubuntu

Personal Skills

- Multitasker
- Time Management
- Communication
- Adaptive

Intern

Power Integrated Solution July 2024 - Aug 2024

- Gained hands-on experience in microcontroller programming, hardware interface, and real-time systems.
- Worked with Arduino, Raspberry Pi, Embedded C, and Python, implementing 10+ sensors in Projects.
- Developed 5+ projects, including Smart Plant Watering, Air Quality Monitor, and Smart Security System.
- Used Workwise and Collaborated with 5+ interns on project development. Presented findings, receiving 90% positive mentor feedback.

Projects

- Safety Helmet Detection** - Developed a system to detect safety helmets using YOLOv8 and deep learning techniques. Utilized OpenCV for Image Processing and real-time detection. Technology Used: YOLOv8, Deep Learning, SLIM CA Algorithm, OpenCV, PyCharm.
- Bin Level Indicator (Mini Project)** - Designed a system that accurately monitors and alerts when a bin reaches specific fill levels to prevent overflow or underutilization.

Interests

- Public Speaking
- Crossword Puzzles
- Creative Writing
- Coding/Programming
